MENA REGION

Introduction

Starting in 1995 from a small town of Telford, England, Telford Home Appliances has maintained its identity as one of the leading brands in most innovative and consumer-friendly in-built kitchen appliances.

With the vision of Mr. Jefferson Bulpit (founder of Telford Home Appliances Ltd. United Kingdom), today the brand has its global presence of more than eighteen countries worldwide.

Our belief is to maintain our identity as a reliable provider of the most versatile range of appliances.

The Telford brand is keen to become a global home appliances brand and become synonymous with solid British manufacturing quality and innovation.

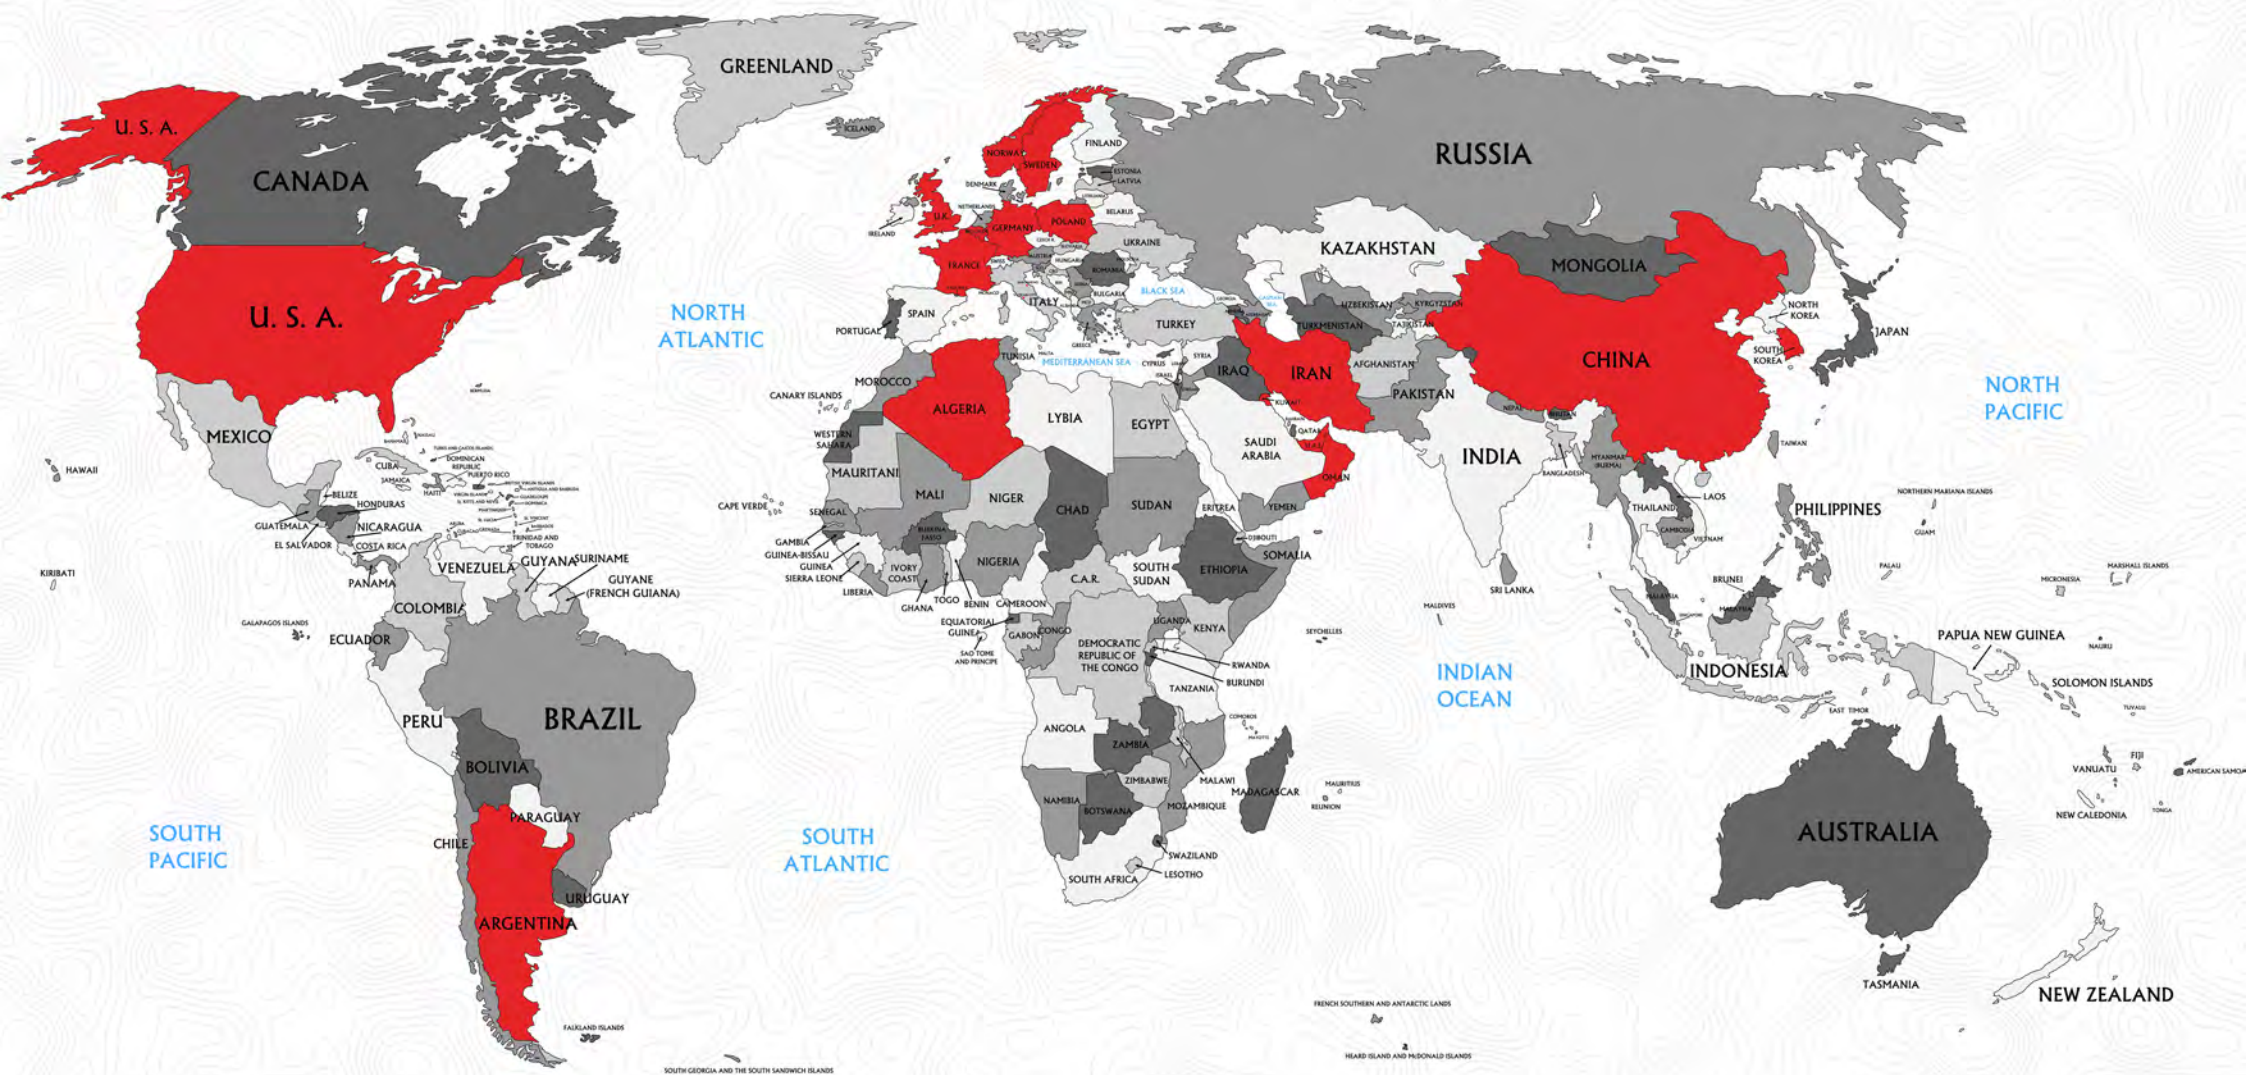

All our products are certified by international certification bodies for quality and safety of our consumers.

Product Features

1200 Watts powerful copper motor.

Digital Function Selector with LCD display.

Automatically adjusts speed for better juicing.

1.0 Liter Glass-jar (with grinder and chopper).

Large pulp-collector with juice collecting jar.

Full-fruit large feeding tube.

Stainless-steel blades.

Strong metal locking arm.

Anti-skid rubber-feet.

Motor-overload protection.

Product Features

1200 Watts powerful copper motor.

Two-speed with pulse function.

Led luminated dial.

Automatically adjusts speed for better juicing.

1.0 Liter Glass-jar (with grinder and chopper).

Large pulp-collector with juice collecting jar.

Full-fruit large feeding tube.

Stainless-steel blades.

Strong metal locking arm.

Anti-skid rubber-feet.

Motor-overload protection.

TJM-80R **Juicer**

Product Features

1200 Watts powerful copper motor.

Two-speed with pulse function.

Led luminated dial.

Large pulp-collector with juice collecting jar.

Full-fruit large feeding tube.

Stainless-steel blades.

Strong metal locking arm.

Anti-skid rubber-feet.

Motor-overload protection.

Product Features

1200 Watts powerful copper motor.

Stainless-steel housing.

Digital control with touch.

8 speed setting.

Large pulp-collector with juice collecting jar.

Full-fruit large feeding tube.

Strong metal locking arm.

Anti-skid rubber-feet.

Motor-overload protection.

CHOPPERS

2

Product Features

220-240V, 50/60 Hz

430 Watts Full Copper Motor.

Two speed settings.

Stainless-steel Housing

2 Liters Glass bowl.

Strong motor and sharp blades.

Easily minces meat and poultry.

Quick vegetable chopping.

4 Stainless-steel strong blades.

Easy cleaning and maintenance.

Anti skid rubber pad.

Motor over load protection.

Product Features

500 Watts Full Copper Motor.

Multifunction chopper and dough-maker.

5 speed configurations.

4L food-grade SUS304 stainless-steel bowl.

Sharp six-blade system.

Safety-lock system.

Overheating protection.

Anti-slip rubber base.

A close-up, artistic photograph of an espresso machine. The background is dark and moody, with the metallic components of the machine visible. A stream of dark coffee is being dispensed from the spout into a cup. The lighting highlights the textures of the metal and the rich color of the coffee. The overall aesthetic is professional and sophisticated.

ESPRESSO MACHINES

BARISTA

TEM-5959 Espresso Machine

Product Features

1300 Watts

Bean to cup cappuccino, latte and espresso maker.

25 Bars Italian Pump.

Aluminum alloy boiler.

1.6 Liters detachable transparent water tank.

8 cups capacity.

Durable stainless-steel cup warmer at top.

Grinded coffee or coffee-pods can be used.

300g bean-grinder.

Divine

TEM-1821 Espresso Machine

Product Features

1300 Watts.

Cappuccino, latte and espresso maker .

15 Bars Italian Pump.

1.6 Liters Detachable Transparent Water tank.

8 Cups capacity.

Durable stainless steel cup warmer at top.

Grinded coffee or Coffee Pods can be used.

Marvelle

TEM-8301 Espresso Maker

Product Features

2500 Watts.

Cappuccino, latte and espresso maker. With coffee grinder.

Bean-to-cup espresso maker.

25 Bars Italian Pump.

200g beans grinding capacity.

2.3 Liters Detachable Transparent Water tank.

Volumetric control 1-2 cups of coffee.

Preselected or manual coffee grinding function.

Safety valve to release pressure.

8 Cups capacity.

Grinded coffee or Coffee Pods can be used.

Diecast aluminum alloy boiler, filter holder.

Dual stainless-steel filters to improve quality of the coffee.

Overheating and pressure protection.

GIGA

TEM-8891 Espresso Maker

Product Features

2100 Watts.

20 Bars Italian Pump.

8 Cups capacity with Transparent water tank.

Elegant touch screen operation panel.

One cup two cup settings.

Capable of making espresso, latte, and cappuccino.

Overheating and pressure protection.

GIGA

TEM-8891 Espresso Maker

Product Features

2100 Watts.

20 Bars Italian Pump.

8 Cups capacity with Transparent water tank.

Elegant touch screen operation panel.

One cup two cup settings.

Capable of making espresso, latte, and cappuccino.

Overheating and pressure protection.

ROGUE

TEM-1821 Espresso Maker

Product Features

2200 Watts.

Cappuccino, latte and espresso maker .

20 Bars Italian Pump.

1.6 Liters Detachable Transparent Water tank.

8 Cups capacity.

Elegant European Style Body.

Grinded coffee or Coffee Pods can be used.

Overheating and pressure protection.

BRESTO

TEM-6911 Espresso Maker

Product Features

2000 Watts

Cappuccino, latte and espresso maker.

20 Bars Italian Pump.

2.0Liters Detachable Transparent Water tank.

10 Cups capacity.

With 500ml Milk-tank.

Durable stainless steel cup warmer at top.

Grinded coffee or Coffee Pods can be used.

Overheating and pressure protection.

ELITE

TEM-1569 Espresso Maker

Product Features

1500 Watts.

Cappuccino, latte and espresso maker.

18 Bars Italian Pump.

1.6 Liters Detachable Transparent Water tank.

8 Cups capacity.

Durable stainless steel cup warmer at top.

Grinded coffee or Coffee Pods can be used.

Overheating and pressure protection.

ROBUSTO

TEM-9301 Espresso Maker

Product Features

2200 Watts.

Cappuccino, latte and espresso maker .

20 Bars high pressure Italian Pump.

1.4 Liters Detachable Transparent Water tank.

200g capacity coffee grinder.

Bean-to-cup coffee machine.

8 Cups capacity.

Thermoblock heating system.

58mm aluminum alloy filter holder.

Can make coffee or steam conveniently.

Pure copper motor coffee grinder.

2 cups - 1 cup filter + pod filter.

Grinded coffee or Coffee Pods can be used.

Overheating and pressure protection.

30 grinding degrees can be selected to meet different needs.

MAGNIFICA

TEM-5161 Espresso Maker

Product Features

1800 Watts.

Cappuccino, latte and espresso maker .

20 Bars high pressure Italian Pump.

1.0 Liters Detachable Transparent Water tank.

6 Cups capacity.

Thermoblock heating system.

Aluminum alloy filter holder.

Can make coffee or steam conveniently.

Pure copper motor coffee grinder.

Overheating and pressure protection.

Function selector for 1 cup, 2 cups, steam.

Stainless-steel cup mat for cup heating.

TEA TRAYS

Product Features

2200 Watts.

Elegantly designed Glass Tea Tray Base.

Digital Control.

1.8L Stainless-Steel Electric Kettle.

Food-grade SUS304 Stainless-Steel.

With strix controller.

Auto shut-off function.

Boil/Dry safety function.

1.2L Glass Tea-pot.

Keep-warm function.

Product Features

2200 Watts.

Elegantly designed Glass Tea Tray Base.

Digital Control.

Overheating and overload protection.

A photograph of a refrigerator interior, showing shelves with various food items like grapes, tomatoes, and packaged goods. The image is dimmed and serves as a background for the text.

REFRIDGERATORS

TFR-500WB Refridgerator

Product Features

500L French-door refridgerator.

Glass and stainless-steel body.

Energy-saving inverter compressor.

Capacity of fridge: 370L.

Capacity of freezer: 130L.

No frost.

Child Lock, door alarm system.

Electronic temperature control and LED Display.

Independent variable temperature drawers.

Moisurizing fruit and vegetable drawers.

2 Full width freezer drawers.

3 Layers of independent storage.

TFR-560WB Refridgerator

Product Features

560L Cross-door refridgerator.

Glass and stainless-steel body.

Energy-saving inverter compressor.

Capacity of fridge: 410L.

Capacity of freezer: 150L.

No frost.

Energy Class: A+. Low Noise.

Electronic temperature control with LED Display.

Child Lock, door alarm system.

Independent variable temperature drawers.

Moisurizing fruit and vegetable drawers.

3 Layers of independent storage.

90° Pull out drawers.

Fast freezing and cooling.

DISH WASHERS

Francis

TDW-26M4H Dish Washer

Product Features

60cm Free standing Dish Washer.

Stainless-steel housing.

Water consumption: 7.8L/cycle.

Maximum number of place settings: 13.

Three racks.

Auto 45°-65°C delicate economy, intensive, quick L and quick S settings.

Additional operational settings (extra rinse, half float, hygiene plus, machine care).

Drying progress indicator.

Precise glass protection.

Aqua sensor.

Eco-silence/efficient and extra silent.

WATER DISPENSERS

Product Features

Free-standing water dispenser with fridge cabinet.

Hot, Normal, Cold taps.

Heating wattage: 550 Watts.

Cooling wattage: 95 Watts.

Energy efficient inverter compressor.

ABS shock-proof body.

Protection Level 1.

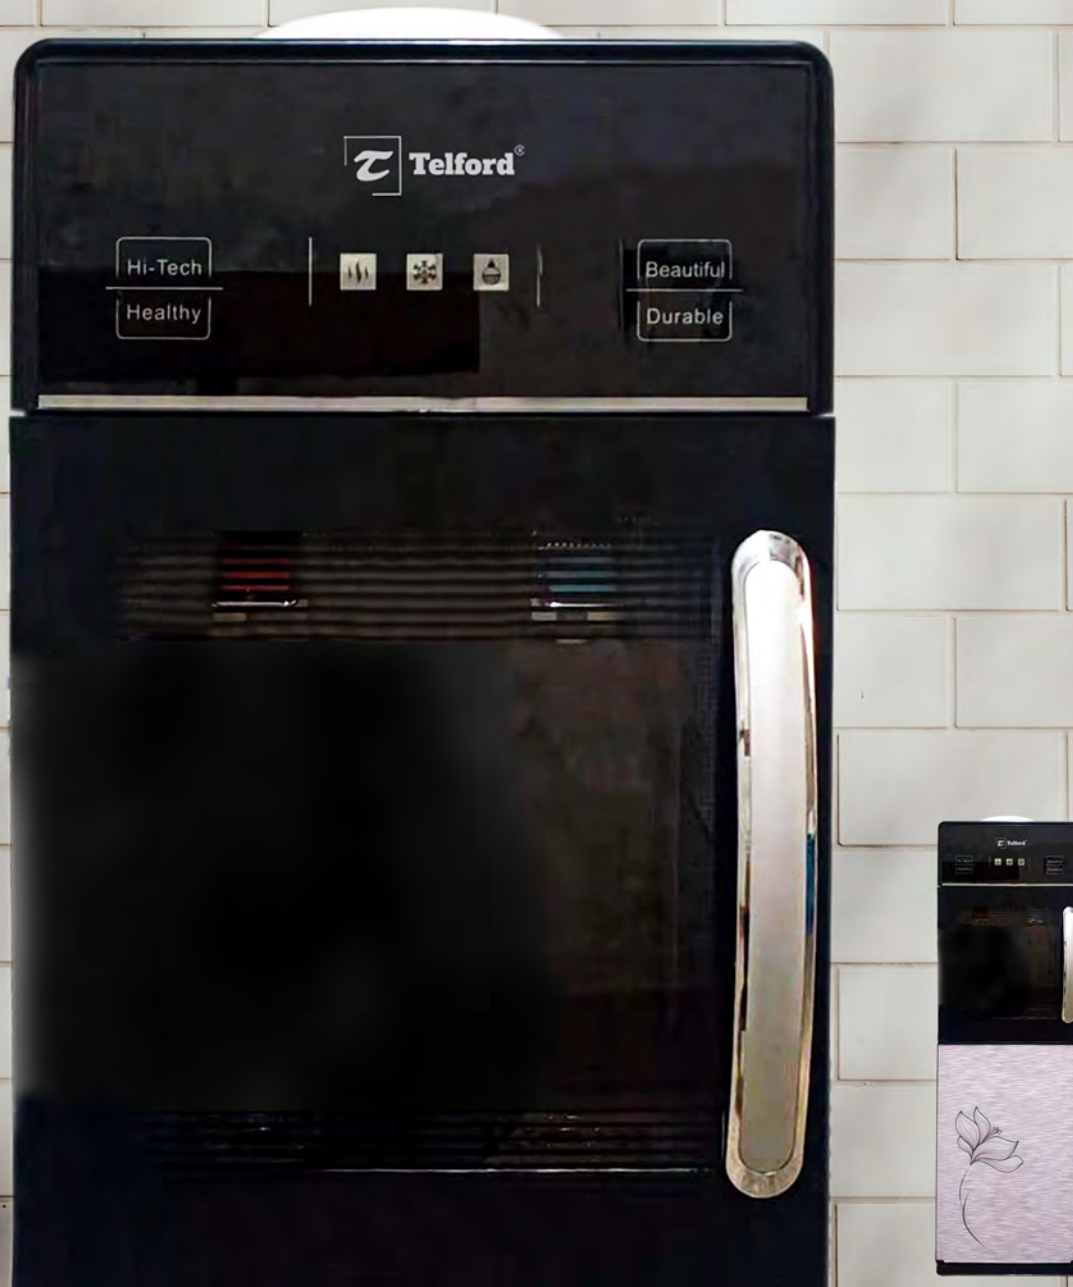

Over-current protection.

LED functional lights.

Automatic thermostat controller.

Anti-bacterial stainless-steel water tank.

Child safety-lock for hot water tap.
